

Turn Your WordPress Site into an AI-Powered Knowledge Hub

Instant Answers. Consistent Results. Customizable.

Amplify AI Search delivers fast, credible answers drawn directly from your site's own content—posts, PDFs, charts, and embedded media. Every response is conversational, fully cited, and easy to share, helping users explore your information with confidence and clarity.

Built in Gutenberg and designed for WordPress, Amplify AI Search is 100% customizable—from design to voice and tone. It fits seamlessly into your existing site and editorial workflow, giving you full control over layout, styling, and the way your brand communicates.

By surfacing verified answers instantly, Amplify AI Search reduces inbound questions and gives your team more time to focus on what matters most: serving your audience.

Conversational Responses

Natural-language answers generated from your WordPress content so info is tailored to your audience.

Data-Driven Insights

Supports embedded charts, images, and iFrames from posts or PDFs for richer, more contextual answers.

Consistent + Reliable

Answers are stored in a custom post type, so every user sees the same accurate, up-to-date information.

Type-Ahead Questions

Surface common queries and FAQs without triggering repeated AI calls or creating bloated data tables.

Citations & Source Links

Every answer links directly to its source, allowing users to explore related content or access files.

Shareable Results

Each question-and-answer pair is linkable, making it easy to share across sites or channels.
